

Aditya Thakur

+91 6230023969 | adityathakur2661@gmail.com | LinkedIn | GitHub | Codolio Profile

EDUCATION

Chandigarh University

Bachelor of Engineering in Computer Science

Graduation: May 2026

Punjab, India

TECHNICAL SKILLS

Languages: C++, Java, Python, JavaScript, SQL

Backend & Systems: Spring Boot, Apache Kafka, Node.js, RESTful APIs, Microservices

Frontend: React, HTML5, CSS3

Databases & DevOps: PostgreSQL, MongoDB, MySQL, Docker, Git, Linux

EXPERIENCE

Zomato

Delight Operations Associate

Jan 2026 – May 2026

Gurugram, India

- Analyzed high-volume customer issue tracking and ticket resolution frameworks to optimize platform operational reliability.
- Streamlined ticket dispatch pipelines and operational workflows, boosting key platform efficiency and user satisfaction metrics.
- Collaborated with cross-functional technical teams to identify recurring backend bottlenecks, reducing escalation rates across support queues.

Medoc Health

Backend Developer Intern

Jan 2025 – May 2025

Remote

- Architected scalable RESTful APIs and backend microservices using Spring Boot, accelerating data throughput across services.
- Integrated event-driven architecture and optimized SQL queries to improve database responsiveness and backend reliability.

PROJECTS

Midas Core Backend Framework | Java, Spring Boot, Kafka, PostgreSQL | [GitHub]

- Engineered an asynchronous, high-throughput message processing engine using Apache Kafka and Java Spring Boot.
- Designed resilient API endpoints and relational schemas capable of handling high concurrency with minimal latency.

Team Sync Platform | React, Node.js, MongoDB, WebSockets | [GitHub]

- Developed a real-time collaborative workspace featuring socket-driven messaging and interactive team task tracking.

AI Text Summarizer | Python, NLP, REST API | [GitHub]

- Built an automated text processing pipeline using natural language processing techniques to distill documents into key insights.

macOS Interface Emulator | React, JavaScript, CSS3 | [GitHub]

- Created a web-based desktop application mimicking core macOS user interface components and file management interactions.

CERTIFICATIONS, ACHIEVEMENTS & PROFILES

- Codolio Profile:** Verified **Codolio Profile** showcasing competitive programming analytics, multi-platform problem-solving metrics, and code efficiency ratings.
- Meta Professional Certificate:** Completed Meta Specialization on Coursera, mastering modern application architecture, component design, and state management.
- JPMorgan Chase & Co. Virtual Experience:** Completed Software Engineering simulation focused on backend stream processing, data feed integration, and system analysis.
- University Hackathon Winner:** Secured **3rd Place** out of 50+ competing teams at Chandigarh University by designing and building a scalable full-stack solution during a 24-hour sprint.
